

Homes for Islington are carrying out a digital aerial upgrade throughout the Borough. In order to comply with the Government target of complete digital signals being broadcast by 2012, it is necessary to upgrade all existing communal aerials. BSKyB will be carrying out the works to all properties within the Borough and a complete upgrade of the aerial will also include a communal Sky Satellite dish. This means that you will not need your own Sky dish on the side of the property as your new communal dish will be able to receive your Sky subscription should you have one.

Below are the blocks within the London Borough of Islington that will have their communal aerial upgraded.

If you would like to discuss these works with the Energy and Engineering Team within Homes for Islington please contact Greg Liddlelow on 020 7527 5667 or greg.liddlelow@homesforislington.org.uk
